Ismayel Alam

Front-End Web Developer

Dhaka, Bangladesh • www.ismayelalam.com • Ismayelalam0@gmail.com • (+880) 1626 256336

Passionate and self-taught front-end web developer with a strong foundation in HTML, CSS, and JavaScript. Seeking opportunities to leverage my skills and creativity to build visually stunning and user-friendly websites.

Work Experience

Texty - (demo project)

Texty has been a challenging but rewarding project. It offers seamless connections, user-friendly features, and efficient blocking for a positive experience. Overcoming database hurdles and a well-matched tech stack have accelerated my progress. With three datasets and Firebase for the backend, Texty is on a path of continuous improvement and growth.

Tech stack: React, React Router, Sass, Firebase, Versel

Work Board (Trello clone) - (demo project)

In today's fast-paced world, maintaining focus can be tough. To combat this, I created a Trello-inspired workboard with personalized features. While enjoyable, it taught me valuable lessons. In hindsight, I might have chosen a different tech stack due to data challenges. I had to remove certain features due to the volume of data processed locally. I see room for improvement, and this experience has been amazing, reinforcing my belief in tackling complex challenges and continual growth.

Tech stack: React, React Redux, TailwindCSS, Versel

Bookish - (demo project)

Imagine all your favourite books in one place. This app lets you read online or order paperbacks from Amazon, bookmark your adventures, and explore favourite authors. Dynamic links ensure consistent sharing. Managing data from a massive free API with 30 million books was a big challenge. After tireless work, I created a system that provides a smooth user experience. Enjoy reading!

Tech stack: React, React Query, React Router, TailwindCSS, Versel

Skills

- JavaScript
- HTML
- CSS
- ReactJS
- Sass
- TailwindCSS
- Firebase
- Git
- Figma
- Blender 3d
- Photoshop
- Illustrrator
- Linux
- Windows
- Responsive Design
- Web Application
